

NEWTON

Isaac Newton (1643 –1727) is a famous scientist and mathematician who lived in the 1600's. He discovered many of the laws and theories that help to explain our universe today. Newton was a man of great humility and once said "If I have seen a little further it is by standing on the shoulders of Giants" in recognition of the achievements of others before him.

OUR CHARITY!

Over that past 40 years cancer research has been discovering new ways to prevent, diagnose and treat cancer. During this time survival rates have doubled.

Many of the students in Newton house have been affected by cancer and Charity council decided that this is the charity that they would like to support.

For further information about this wonderful charity please visit

<http://www.cancerresearchuk.org/home>

WHO ARE WE?

Our house is made up of 2 forms per year:

7NN – Mrs Noble
7NW – Mr Whalley
8NC – Mr Cosgrove
8NH – Mrs Hall
9NG – Mr Garry
9NP – Mr Proudfoot
10NM – Mrs Sinclair
10NS – Miss Simms Crewe
11NK – Mrs Chadwick
11NL – Mrs Turner
